Appendix 1 – Summary of Requirements

Requirement 1. a	To have clearly articulated and evidenced senior leadership			
	commitment for fatigue risk management.			
Purpose	To show in their business area fatigue risk is acknowledged, taken			
	seriously and is a topic which can be freely discussed.			
Demonstration	Must Should Could			
	Provide evidence of Articulate their Demonstrate			
	current leadership expectations. positive behaviours			
	commitment to Provide an 'open in line with their			
	fatigue management door' policy. written			
			commitment.	

1. Leadership Commitment & Scope

Requirement 1. b	To implement a system of controls to manage the risks from			
	fatigue at the appropriate level (scope)			
Purpose	To manage the risk from	To manage the risk from fatigue to as low as reasonably		
	practicable (ALARP)	practicable (ALARP)		
Demonstration	Must Should Could			
	Develop a local Include Continuous Invite external/3 rd			
	FRMP Improvement (CI) Line			
		processes	Audit/Assurance	

2. Change Management and Governance

Requirement 2	To meet our legal and regulatory requirements for SHE Governance and Change Assurance pertaining to fatigue management.			
Purpose	To ensure all FRMP change is managed appropriately, and all fatigue management matters are governed.			
Demonstration	Must	Should	Could	
	Implement any Share innovations Proactively integrate			
	fatigue management and improvements fatigue management			
	and or changes are proactively within activities into all			
	done in accordance and external to TfL existing plans (e.g.			
	with TfL SHE SHE, People).			
	Governance/Change Have a continuously			
	Assurance processes developing Change			
			Impact Assessment.	

3. Culture and Reporting

Requirement 3. a	To have a culture where fatigue can be discussed openly and without fear of recrimination.			
Purpose	To enable better understanding of the topic of fatigue and the potential risks to health, wellbeing and the safety of ourselves and others			
Demonstration	Must	Should	Could	
	Develop and foster a	Measure the	Benchmark against	
	just and fair culture 'temperature' of this external			
	in line with TfL/ <u>SHE</u> culture regularly (i.e. organisations			
	Culture programmes	through surveys)		

Requirement 3. b	Afford time and space to encourage individuals to report fatigue concerns and to encourage individuals to report when they are too fatigued to work safely			
Purpose	To better understand the risks from fatigue to increase its management			
Demonstration	ManagementMustShouldCouldDevelop a non- punitive system to allow individuals to report fatigueActively encourage individuals to report fatigueShare all data pan- TfL, including any resultant actions			

4. Hazard Identification and Risk Assessment

Requirement 4	To identify the potential hazard from fatigue and then assess those risks			
Purpose	To allow appropriate risk assessments to take place			
Demonstration	Must Should Could			
	Ensure fatigue is considered in risk	Ensure risk assessments are	Share risk assessments pan-TfL	
	assessments	reviewed regularly		
		and actioned		

5. Contractual Arrangements with adjacent FRMP

Requirement 5	To ensure contractors and suppliers are clear as to TfL's			
	requirements around fatigue risk management			
Purpose	To ensure no unnecessary fatigue risk is imported to or exported			
	from TfL.			
Demonstration	Must	Should	Could	
	Ensure	Support suppliers	Engage and	
	requirements for	that are developing	collaborate with	
	fatigue management	their fatigue risk	suppliers on joint	
	is included in all	management	fatigue risk	
	contracts where	arrangements by	management	
	there may be a	sharing TfL's FRMP	improvement	
	fatigue risk for the	and knowledge and	initiatives including	
	supplier.	experience of	sharing lessons	
		fatigue risk	learned	
	Ensure compliance	management.		
	with the			
	requirements are			
	checked using a risk-			
	based assurance			
	approach.			

6. Objectives & Targets

Requirement 6	To track performance on fatigue mitigation activity			
Purpose	To ensure targets are met and to drive continuous improvement			
Demonstration	Must	Should	Could	
	Track performance	Develop their own	Benchmark against	
	around the three TfL	internal measures	high performing	
	Fatigue KPIs (see	for tracking their	contemporary	
	guidance section)	fatigue risk	organisations	
	management			
	arrangements as			
		well as the agreed		
		TfL Fatigue KPIs		

7. Investigation

Requirement 7	To consider fatigue in investigations at all levels			
Purpose	To understand how much fatigue is a causal or contributory factor			
	in incidents and near i	misses		
Demonstration	Must Should Could			
	Provide evidence Develop more Consider external			
	that fatigue is detailed KPIs around benchmarking			
	recorded in all individual causal and			
	investigations in contributory factors			
	accordance with the			
	KPI			

8. Organisation and Personnel

Requirement 8	To articulate roles and responsibilities around the management of fatigue risk		
Purpose	To ensure accountability and responsibility is appropriately held and to inform individuals as to the requirements placed upon them		
Demonstration	Must Include all levels and executive roles	Should Include all staff	Could Consider responsibilities and accountabilities of contractors and third-party suppliers

9. Training

Requirement 9	To train all staff appropriately relating to fatigue			
Purpose	To enable staff to comply with their individual and organisational responsibilities			
Demonstration	Must Should Could			
	Ensure all staff	Be refreshed at	Consider external or	
	receive fatigue regular intervals wider industry			
	training appropriate		training on fatigue	
	to their role, Be incorporated into			
	function and any additional/wider			
	responsibilities training			
		requirements		

10. Emergency planning

Requirement 10	To ensure the risks from fatigue are considered in the emergency planning process		
Purpose	To ensure the risks from 'on call' working are managed appropriately		
Demonstration	Must	Should	Could
	Develop a robust 'on call' procedure if required	Review each instance this procedure is required to seek continuous improvement	Share approach to local fatigue management with key stakeholders (3rd parties that share premises, security etc. or even emergency services where appropriate)

11. Documentation

Requirement 11	To evidence fatigue management arrangements			
Purpose	To allow for auditing and assurance activities as well as internal			
	continuous improvement/tracking purposes			
Demonstration	Must	Should	Could	
	Demonstrate	Report progress		
	compliance with this	against this		
	document	document in SPI (or		
		equivalent)		

12. Promotion

Requirement 12	To promote the topic of fatigue			
Purpose	To assist in the education of staff on the topic of fatigue			
Demonstration	Must	Should	Could	
	Consider fatigue in	Include the topic of	Embed as part of	
	their wider safety,	fatigue in a variety	local SHE/People	
	Health and	of mediums	Plan workstreams	
	Wellbeing			
	communications
